PRESENTING COMPANIES:

GOLDCORP, INC. (NYSE:GG): is North America's fastest growing senior gold producer. Its low-cost gold production is located in safe jurisdictions in the Americas and remains 100% un-hedged. On its web site, the company states that their project pipeline is robust, allowing for long-term, sustainable growth. Visit: www.GoldCorp.com for more information.

NORTHGATE MINERALS CORPORATION (AMEX:NXG): is a gold and copper producer with mining operations, development projects and exploration properties in Canada and Australia. Their vision is to be the leading intermediate gold producer by identifying, acquiring, developing and operating profitable, long-life mining properties. The company has a bonafide balance sheet and is forecasting production of 274,000 ounces of un-hedged gold production in 2010 and is targeting growth through further acquisitions in stable mining jurisdictions around the world. Visit www.northgateminerals.com for more information or by emailing KYUN@NorthGateMinerals.com.

RX EXPLORATION, INC. (OTCQX:RXEXF): is a gold exploration company whose strategy is to re-examine gold projects within North America that have previously reached advanced exploration, underground development or past gold production. The Company is currently focused on re-starting production from its Drumlummon Mine, a past producing high-grade, bonanza-type, and epithermal underground gold and silver mine in Montana. Ore from a current test mining program is being trucked to and processed in a leased mill located in Phillipsburg, Montana. More information is available at <http://www.rxexploration.com> or by emailing Seclement@aol.com.
